# GBC® eBinder 200™
# Produce a full range of printed and bound materials at the touch of a button—all with a single automated solution.

The GBC eBinder 200 is an automated, mechanical binding system that finishes a full range of document sizes with a single binding element that adjusts automatically to every book thickness.

Connected to Xerox® printers, the GBC eBinder 200 is fully automated and creates high-quality, lay flat books quickly and easily inline. The innovative "one-size-fits all" GBC Ellipse element produces elegant lay flat and 360-degree wraparound books with a fresh, modern appearance. The elliptical profile of the element creates compact documents for improved shipping, storing and stacking.

## Features

- Automatically punch, comb and bind booklets—at the speed of the print engine
- Requires a single bind element for all book sizes—eliminating the need for multiple sized elements
- Enables the punching and binding of a large variety of stocks, including covers and tabs up to 80 lb
- Books of 2 to 100 sheets (4 to 200 duplexed pages) plus two covers can be bound
- Easily emptied catch drawer collects "chips" resulting from punching
- Sleek, modern elliptical design of the bind element conforms more closely to the book backbone
- Seamless, user-friendly cassette loading

## Benefits

- Excellent for documents that exceed the stapling limit
- Adds an aesthetic, professional finish for bound books and manuals from 15-125 sheets
- Economical solution for documents with a short life expectancy or designed specifically for internal use, such as routine reports, reference data and directories
- Provides tamper-resistance, helping ensure documents remain whole
- Set-level job recovery maintains job integrity in the event of a jam
- Can run in Binding Mode or Bypass Mode, which passes sheets to third-party finishing devices
