

Nuance Equitrac Express

Recover print costs, make printing secure and convenient, and reduce waste at your campus, school or district.

Recover Costs. Print Anywhere. Reduce Waste.

Equitrac Express® software brings accountability and control of printed output to any campus, school or district, making it easy to recover campus-wide print and copy costs, make printing convenient without compromising security, and encourage responsible printing.

By providing increased awareness of print habits and their associated costs through user-level reporting, print management helps change print behavior. Compatible with leading campus card systems and any printer/MFP, Equitrac Express is used in over 1,000 education institutions throughout the world helping schools enforce student print quotas, charge for printed output, reduce wasteful unclaimed printing, and make printing more convenient, manageable and secure.

- Track output from all connected printers and copiers
- Use print reports to set and enforce print quota
- Allocate printing costs to a specific department/grant
- Discourage waste and abuse, while enforcing rules for output
- Send files to remote output device for secure pickup
- Ensure convenience without sacrificing quality
