

## Square 9 Softworks

With SmartSearch and Kyocera, effortless document workflow is at your fingertips.

### **Effortless document workflow at your fingertips**

From small businesses to the Fortune 500, organizations that rely on document-intensive processes use SmartSearch to manage documents electronically and streamline their workflows as they eliminate inefficient paper based filing systems. Built on the .NET Platform using an open architecture design, SmartSearch is a scalable, value-driven solution that is easy to use, learn and support.

This unique software solution is ideal for paper-intensive businesses such as law offices, physician practices, accounting firms, trucking companies, and mortgage and title companies that are looking for a cost-effective way to eliminate their paper-based filing systems.

SmartSearch is offered as both a departmental and enterprise class solution allowing organizations to easily scale to their document management needs.

- SmartSearch Professional Edition – The perfect Content Management solution for Small to Medium Business (SMB) and departmental applications. With its modular design, the Professional Edition offers maximum flexibility in both pricing and configuration by allowing organizations to select only the tools needed for their specific business application.
- SmartSearch Corporate Edition – Designed for organizations looking to leverage the full spectrum of what SmartSearch has to offer. As a comprehensive solution which includes licensing for disaster recovery and test bench applications, the Corporate Edition delivers a tremendous balance of value and enterprise class functionality.
